Summary

As a seasoned Django backend developer, I bring robust expertise in Python programming to drive innovative solutions. At Smart Solutions, I played a pivotal role in enhancing Django backend development, leveraging my strong foundation in Python. With a keen focus on advancing software engineering practices, I aim to deliver impactful solutions that drive tangible results.

Experience

Backend Developer   June 2022 – Aug 2022
xWare Integrated Solutions   *Assiut, Egypt*
  • Learned backend development with Python Django
  • Deployed applications on servers and managed PostgreSQL databases
  • Worked on projects using Django REST and Django native.

TECH Member   Jan 2023 – Present
Google Developers Group   *Assiut, Egypt*
  • Helped tech communities and programmers learn about technology
  • Organized events to foster learning and gave sessions on backend development.

Operations Room Leader at YLY   Jan 2023 – Present
Ministry of Youth and Sports   *Assiut, Egypt*
  • Assisted in managing plans to organize sports events and learning events about technology
  • Coordinated logistics and ensured smooth execution of event schedules.

Education

Assuit University   Assiut, Egypt
B.Sc. in Computer Science, Faculty of Computers and Information — GPA: 3.49   *Sep 2020 – Jun 2024*

Projects

EspressoToGo Cafe   Aug 2023 – Dec 2024
Cafe and Sales Management System   *Python, Django*
  • Implemented features including:
      - Admin site for managing sales details such as profit, net profit, and costs
      - Cashier site for managing order details
  • Project details: https://github.com/ibrahimshaabann/EspressoToGo/

Digital Copyrights   Oct 2023 - Jun 2024
API for detecting unauthorized content violation   *Python, Django*
  • Integrated reporting and moderation systems for content management
  • Deployed system components on cloud platforms
  • Project details: https://github.com/ibrahimshaabann/GraduationProject

Gym Master   Jan 2024 - Jun 2024
API for Gym Management System   *Python, Django*
  • Managing Gym Products: Track inventory and manage orders.
  • Coaches Management: Schedule sessions and maintain profiles.
  • Subscription and Trainee Management: Handle memberships, track progress, and manage diets and calories.
  • Project details: https://github.com/zeyadesperado/GymMaster

Technical Skills

Programming Languages: Python, Csharp, SQL, C++, Java

Frameworks: Django, .NET

Libraries & Tools: Git, Docker, PostgreSQL

Development Practices: RESTful API development, Agile methodologies

Operating Systems: Ubuntu, Windows

Soft Skills

Communication: Excellent written and verbal communication skills, effectively conveying complex technical concepts

Teamwork: Proven ability to work effectively within cross-functional teams.

Problem-Solving: Skilled in problem-solving, applying a systematic approach to effectively identify and resolve complex challenges.

Time Management: Ability to manage multiple projects and meet deadlines consistently

Adaptability: Quickly adapts to new technologies and environments, eager to learn and grow
